Subject: Erasmus+ Application – Motivation Letter

Dear Sir/Madame,

I am currently a third-year student in Business Administration at the University of Urbino, and I am writing to express my strong interest in participating in the Erasmus+ program to spend a semester abroad at the University of Manchester.

Thanks to my solid academic background, reflected in a current GPA equivalent to 28.5/30, and my good command of the English language, I believe I have the necessary skills to successfully undertake this international experience. I am confident that studying in a high-quality academic environment such as that of the University of Manchester will allow me not only to deepen my knowledge in economics - by taking courses focused on international economics, public policy, and sustainable finance - but also to grow on a personal and intercultural level.

Manchester, as a vibrant and international city, represents the ideal place for me to engage with different perspectives on economics and broaden my global outlook. This experience is also part of a broader plan: after completing my degree, I aim to pursue a career in strategic consulting in an international environment. Spending a semester at the University of Manchester would be a concrete first step toward achieving this goal, as well as a valuable opportunity to become familiar with an English-speaking academic and professional context.

I am a determined and curious person, always ready to take on new challenges with enthusiasm. I believe that participating in the Erasmus+ program would be a unique opportunity to challenge myself, develop new skills, and expand my horizons, both personally and professionally.

Thank you for your time and consideration. I remain at your disposal for any further information you may require.

Yours faithfully,

Beatrice Silvestri
